

Smart implant detector

An advanced electronic device that accurately locates dental implants covered by gum tissue

◦ QUICK ◦ EASY ◦ PAINLESS

spoiter
Smart Implant Detector

Developed by Forum Technologies, a leader in dental devices market for over 30 years. The first innovative Implant Spotter minimizes pain and reduces healing and chair time to maximize the benefit for both the patient and the dentist.

This is an essential device to be added to your toolbox when implant location identification is necessary.

This amazing tool will enable you to:

- Easily find buried implant
- Shorten the time required to locate a buried implant
- Minimize and shorten the recovery period

More advantages that are achieved when using this device:

- Accurate location of the buried implant
- Detachable sensing head that is easy to be sterilized
- Suitability with various Titanium implants systems

For 2 stage implantology when using no healing cup

Forum Technologies' Implant Spotter is a unique instrument in the modern implantology procedure. Utilizing advanced technology, Implant Spotter is a precise, user-friendly, cost-effective and affordable instrument for both the skilled implantologist and the general practitioner.

BE SMART

By using 'Spotter' you join the list of those leading dentists that capture advanced technology within their daily practice.
