

Company Profile

FORUMTEC
Dental Solutions & Beyond

Pioneering Excellence in Dental Innovation

Overview

At Forumtec, we are committed to revolutionizing the field of dentistry through our cutting-edge products and unwavering dedication to excellence. With a passion for innovation and a drive to surpass boundaries, we are constantly pushing the envelope to redefine what is possible in dental care. Founded in 1987 by three innovative engineers on a mission to revolutionize dental care, today Forum Engineering Technologies (Forumtec) is a leading developer and manufacturer of electronic dental devices and advanced dental equipment.

Our Vision

To be the leading provider of advanced dental solutions, empowering dental professionals worldwide to deliver exceptional patient care and outcomes.

Our Mission

To develop and deliver state-of-the-art dental products that enhance precision, efficiency, and patient comfort, while fostering continuous learning and advancement within the dental community

Key Areas of Expertise

Endodontics

We specialize in providing advanced endodontic solutions that simplify procedures, improve accuracy, and elevate patient experiences. Our innovative apex locators ensure optimal and precise measurements, enabling dentists to achieve exceptional results. We boast a long list of top brands that partner with us as OEM vendor and white/private label manufacturer. Utilizing Forumtec's patented technology, the new Statera vi endo motor provides unparalleled versatility, enabling to utilize a wide range of files in Balanced Force Adaptive Technique mode for efficient and safe canal preparation.

Implantology devices

One of our flagship products is the Spotter Implant detector, a groundbreaking device designed to simplify implant dentistry procedures. With its advanced technology, the Spotter Implant detector provides accurate, real-time detection and visualization of implant position, ensuring precise and efficient implant localization. This innovative tool enhances the uncovering implant procedure, reduces the risk of complications, and delivers superior aesthetic and functional outcomes.
